

This is a list of names of the 71 doctors who tried to get Israel banned from the World Health Association. These 71 doctors have targeted ONLY the Jewish State, which, given the involvement of anti-Semite Jenny Tonge, you are free to conclude why it is they should target ONLY the Jewish state. It is hoped you don't trust any of these doctors with yours or your family's health, given these 71 wish to prevent you benefiting from Israeli Medical Research and Development that has thus far produced so many life-saving and life-enriching results that are, with the exception of these 71 doctors, otherwise lauded by the world's medical establishment.

Dr Chris Burns-Cox Physician Wotton-under-Edge (lead signatory)	Dr Brian Robinson Psychiatry Milton Keynes
